

(a) chest radiograph: the Effusion write raises the Effusion answer less than the Nodule write does

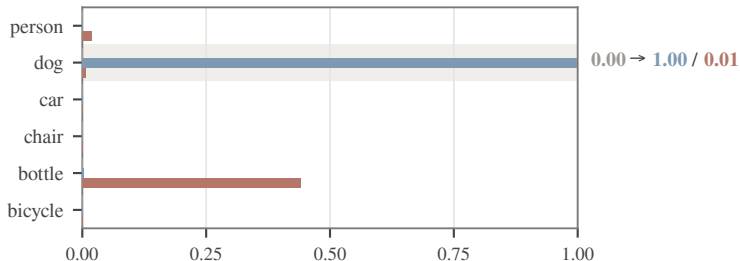

NIH ChestX-ray14  
no finding reported

(b) natural image: the dog write raises only the dog answer, and its strongest competitor does not move it

COCO val2017  
no dog in the image

$P(\text{yes})$  to each question at  $\alpha = +0.25$ , Qwen2.5-VL-7B

clean (no write)    concept write (Effusion in a, dog in b)    strongest competing write (Nodule in a, bottle in b)
